

Industrial Hygienist / Environmental Technician

Our Jacksonville office is currently seeking a candidate for employment (full time position) as an Industrial Hygiene / Environmental Technician.

Requirements

This position requires a reliable, highly motivated, energetic, individual who wants to learn, can complete tasks with a minimum of supervision, but who can also function well as a "team player". This is a physically demanding position that includes substantial fieldwork.

The field technician is responsible for:

1. Calibrating / maintaining sampling equipment
2. **On-site inspections, sample collection, contractor monitoring, ESAs, asbestos surveys, lead-based paint surveys, mold surveys**
3. Project management
4. Report writing.

Applicants should possess strong written and oral communication skills and math abilities. A basic knowledge of Windows, MSOffice and MS Outlook is required. A minimum of a high school diploma and relevant experience is required. A background in Industrial Hygiene, Environmental Sciences, Biology, or Chemistry is a plus. AHERA certifications, NIOSH 582 (or its equivalent), lead certifications and mold inspector certifications are desired. Experience in Polarized Light Microscope is a plus that could lead to additional advanced assignments.

Benefits include: Paid holidays and vacation, training, excellent health insurance, bonus program and simple IRA Plan.

Salary Range: Commensurate with experience

Minimum Career Level: 2 years experience

Minimum Education: High school and work experience and / or related college course work. BS in sciences is a major plus.

Category: Environmental
