Company Profile

ATLAS Scientific Technologies, Inc. is a Florida corporation committed to providing **quality** industrial hygiene and environmental consulting and engineering services.

The Company's Principal has over 20 years of environmental experience and is a Certified Industrial Hygienist and a Florida Licensed Asbestos Consultant. **ATLAS** is licensed to perform **Asbestos Consulting and Environmental Engineering**.

ATLAS was founded on the principal of providing top quality environmental and industrial hygiene consulting services at a competitive price. This goal is accomplished by building a staff of professionals who are highly qualified and experienced in many technical areas within the areas of environmental and industrial hygiene consulting.

Each key professional has been carefully selected to assure that his/her area of expertise will contribute to the overall technical competence of the Company.

ATLAS has established a reputation for excellence through the successful completion of hundreds of complex and diverse projects. This was accomplished by assembling interdisciplinary project teams, which allows for the most effective approach to project design and technical data evaluation. It also provides the most accurate assessment of problems and the development of the most effective solutions to problems. The final result to our clients is **quality, economical and timely solutions**.
